

Agenda Topic	NOTES
<b>Opening Greetings</b> <b>Land Acknowledgement</b> <b>Agenda Overview</b>	<p>The Sullivan Liaison Committee (SLC) bi-annual meeting took place on June 28, 2023, at 6:00 p.m. at the Kimberley Conference Centre. Attendees were invited to attend in person or via Zoom call. The committee, comprised by members of the public and Teck representatives, meets typically in the spring and fall.</p> <p><b>Zoë Ramdin (Community Liaison Coordinator)</b> opened the meeting with greetings to attendees, key speaker introductions, a land acknowledgement, and a review of the agenda, which included:</p> <ul style="list-style-type: none"> <li>• Review of SLC activities</li> <li>• Community Investments</li> <li>• Overview of Legacy and Sullivan Teams</li> <li>• Sullivan Activity Updates</li> <li>• Global Industry Standard on Tailings Management (GISTM)</li> <li>• Q &amp; A</li> </ul>
<b>Value Share</b>	<p>Zoë shared a reflection about National Indigenous History Month in Canada and offered additional resources for learning about Indigenous lands and territories across the country (<a href="https://native-land.ca/">https://native-land.ca/</a>)</p>
<b>SLC Background and Administration</b>	<p>Zoë provided a brief background of the SLC and its Terms of Reference. Main takeaways:</p> <ul style="list-style-type: none"> <li>- The TOR is due for review and update. Teck will share further details of this update in subsequent engagements.</li> <li>- The SLC's community representative Co-Chair position remains vacant. Teck seeks expressions of interest from committee members to fill the role. Interested individuals can contact a Teck representative.</li> </ul> <p>Additional information about the SLC is available in the Community section of the Sullivan website at <a href="http://www.teck.com/Sullivan">www.teck.com/Sullivan</a></p>
<b>Community Investments and Engagement Activities</b>	<p>Zoë provided an overview of local community investments supported by Teck's Legacy Properties Team since the last SLC meeting as well as a summary of community engagement activities that took place.</p>
<b>Site Activity Updates</b>	<p><b>Ryan Peterson (Sullivan Liaison Committee Co-Chair and Senior Supervisor Maintenance &amp; Projects)</b> provided an update on Sullivan's reclamation and Risk Management Plan, including updates on the ongoing regulatory inspections, environmental monitoring, and management programs.</p>
<b>Geotechnical Program</b>	<p>Teck confirmed geotechnical investigations on site are ongoing and there is good performance of all the tailings facilities.</p>

Agenda Topic	NOTES
<b>Water Management</b>	Ryan provided an overview of the water management plans and treatment process at Sullivan. Water is moved from underground workings, the lower mine yard area and Tailings facilities via seepage and groundwater collection to the Drainage water treatment plant. There is daily surveillance of these facilities and 24-hour monitoring. The treatment plant runs twice a year in the spring and fall.
<b>Closure and Biodiversity</b>	The site has been closed now for over 20 years. Teck is looking at innovative approaches for end land uses informed by community input.
<b>Groundwater Remediation Plan</b>	Ryan provided overview of the Notice of Migration of groundwater impacted by the Mine in December 2020 for Marysville and some townsite homes. Teck is working with the Ministry of Environment and Climate Change Strategy to designate it as an “Environmental Management Area” which assigns responsibility of the groundwater quality and its remediation to Teck. Input from the Ministry of Energy, Mines and Low Carbon Innovation and community is being sought.
<b>Upcoming Meetings</b>	The SLC will meet again fall 2023.
<b>Questions and Discussion</b>	Teck representatives responded questions from attendees, which included interest in underground tours, water treatment operations, water quality, baseline data for the site, Sunmine expansion, closure and reclamation research and development opportunities, water sampling, end land use ideas, and decommissioning of tailings facilities.
